APWA/ONE CALL COLOR DESCRIPTIONS

The American Public Works Association (APWA) requires public agencies, utilities, and contractors that excavate underground to use this color standard to identify the location and type of sub-surface utilities. Aervoe Industries was the first marking paint manufacturer to provide the uniform standard for these colors, and our products still proudly carry the One-Call Systems International trademark.

Construction Marking Paint

Construction Marking Paint is the flagship of the line, offering a high quality paint that is priced competitively to meet a variety of marking applications while providing good color visibility and durability. Why pay for the added quality of Survey Marking Paint if the mark does not need to last as long? Great color durability up to three months.
