SPOT MARKER & MARKING STICK

PRODUCT NUMBERS: **1244 SPOT MARKER**
1245 MARKING STICK

I. GENERAL DESCRIPTION

Description: Two marking applicators for use with Aervoe Marking Paint of all types. The #1244 Spot Marker is designed with writing in mind and the #1245 Marking Stick is best for long length marks but can also be used for writing. These designs features our unique trigger and grip for superior ergonomics for all day marking jobs. Design patent pending.

Benefits: These applicators are sturdy, yet lightweight and can be operated with one hand for all your marking needs. The elongated trigger allows for 1, 2, or all 4 fingers to activate the valve on the paint can and the rubberized grip keeps the handle from slipping in the hand. All of this allows the user to make many more marks efficiently and comfortably throughout the day. The #1245 Marking Stick also includes a rubberized wheel, flag holder, and optional flag insert spike.

Applications: Use to dispense marking paints in the form of lines, numbers, words, etc. For consistent markings over long distances, use the #1245 Marking Stick. For lower quantity and intermittent marks, use the #1244 Spot Marker.

Directions: Place can, with or without cap on, into the applicator cartridge aligning actuator with spray tip. Squeeze trigger to begin application.

Limitations: Please refer to Safety Data Sheet for specific Marking Paint product information on material hazards, etc.

II. SHIPPING, STORAGE AND HEALTH

IMDG number ..... Not regulated material
D.O.T. container spec ..... Not applicable
D.O.T. shipping description ..... Not applicable
Warehouse storage level number ..... Not applicable
